

This image shows a mobile application interface for trading, likely on an Android device. The screen is divided into several sections:

- Top Left:** A chart area showing a candlestick price movement over time, with a green trend line indicating a positive market direction.
- Top Right:** A summary of the BIST 30 Futures market, showing the current contract (XU030D11) at 4286.25 TRY, a change of -21.75 (-0.50%), and a range from 4286.25 to 4345.50.
- Middle Left:** A scrollable list of user comments and suggestions. Some notable messages include:
 - "Its very helpful indicator" by krishnaram963190
 - "Really its amazing" by krishnaram963190
 - "Awesome script! Only one that I've found that will color the candles. I really wish it would have the RSI at the bottom of the chart as well instead of importing another one. Maybe you can add that?" by polufson
- Middle Right:** A detailed table of BIST 30 Futures contracts, showing symbols like DAX, BTCUSD, XRPUSDT, ETHUSDT, DOGEUSC, ADAUSDT, and NEOUSDT, along with their current prices, changes, and percentages.
- Bottom Left:** Another chart area showing a candlestick price movement over time, with a green trend line.
- Bottom Right:** A summary of the BIST 30 Futures market, showing the current contract (XU030D11) at 4286.25 TRY, a change of -21.75 (-0.50%), and a range from 4286.25 to 4345.50.
