Hello, very useful RSI tool. What is the correlation between the highlighted candlesticks and the RSI itself?

Thank you.

EUR/USD on TradingView, November 08, 2014

EUR/USD 1H | 1M | 1W | 1M | 1Y | 3M | 5M | 10M | 20M | 50M | 100M

very nice!!

iv replaced RSI with Zerotag RSI and filtered with linear regression to be smoother when i use values below 10

One of the best Strategies i have come across.. Excellent Job Done!! Grateful for getting this

Would appreciate if you can assist on the following.

1. How do i add alert on this strategy once the color changes ??

+16 ▲ Cevap Gönder

Cryptocontinuum · Mar 7, 2018 cso ■

You mean crossing the preset alert lines? I altered them, they don't seem to correspond now. Is there another parameter I have edit as well when I change the alert line values?

Thanks.

HPotter WIZARD · Şub 11, 2019 cso ■

@Cryptocontinuum, Yes, You can to change any parameters in the script for your best results.

Strange that the bars are coloured red when the price drops below the BUY line and green above the SELL line.

+11 ▲ Cevap Gönder

R Rean PRO+ · Tem 18, 2020 cso ■

Will it be possible to update the colors to show red/green if the current histogram bar is higher/lower than the previous bar. So, current bar > previous bar = current bar is green; current bar < previous bar = current bar is red.

@QuantitativeExhaustion, @HPotter could you please elaborate? What kind of divergences to look for? Between T3-CCI and RSI Histoalert? Or between price direction and one of these indicators?  
Thank you.

Thank you very much.

I have one question, I want to make the color of the histogram bar corresponding to each candle the same as the candle color. How can I do that?

Hi HPotter,

Sorry if this is a daft question - but I'm struggling with the alerts - I have moved my channel lines to -20 and +20 and I want to know when the histogram bars breakout of the channel but I'm not sure which of the options to choose??? or how to set this up - thanks for the indicator - I'm just trying to understand it but it looks amazing!!!
