I would also like a way to create alerts for this (will pay for it as well)

I like the way this plots a lot better then the traditional t3. It seems to be filtering out some bad signals... What is causing a candle cross the t3 of the opposite directions from change the green line to red everytime it occurs.

Could you add a WMA moving average option with this?

▲ Cevap Gönder

 **everget** WIZARD · Oca 5, 2021 cevap 

@john4francais, for \$, That will be a special version for you
